A tag is simply a word you use to describe a bookmark. Unlike folders, you make up tags when you need them and you can use as many as you like. The result is a better way to organize your bookmarks and a great way to discover interesting things on the Web.

The address bar shows "https://secure.del.icio.us/settings/sandbe/people/subscriptions". The page content includes a navigation menu with "popular | recent" and "logged in as sandbe | settings | logout | help". A main heading reads "del.icio.us / settings / people / subscriptions" with sub-links for "your favorites", "your network", "subscriptions", "links for you", and "post". Below this is a section titled "Settings, where you can make changes to your account" with five columns of options: Account (change password, change email, edit profile, delete account), Bookmarks (import/upload, export/backup, private saving, rss feed license, Facebook integration), Tags (rename tags, delete tags, bundle tags), People (network privacy, subscriptions, report spam), and Blogging (network badges, link rolls, tag rolls, daily blog posting). The "People: subscriptions" section explains that tag subscriptions track new bookmarks with interesting tags. It features a "subscribe to a tag" form with two input fields: "tag" and "only from this user" (with a "subscribe" button). An arrow points from the text "Du kan prenumerera på taggar från alla användare eller bara från en speciell." to the "tag" input field. A "label subscription" section is also visible. The footer contains links for "del.icio.us", "about", "blog", "terms of service", "privacy policy", "copyright policy", and "support". The Windows taskbar at the bottom shows the Start button and several open applications.

DEN 18 MARS 2008

Oj, vad den lille Snarfern har fått jobba

Jag har legat efter en tid med de 23 sakerna men nu har jag tagit igen lite genom att jobba med Rollyo, InSuggest, Google Reader och Snarfer.

Blev inte värst imponerad av Rollyo - kanske att man är för vad vid det man har och känner till sedan tidigare? Men jag tyckte många av träffarna verkade köpta och opålitliga. Och argumentet att det var färre träffar än i Google kan kvitta för mig om jag ändå får 35 000.

Har börjat prenumerera på några nyhetsflöden med den lille gröne Snarfern. Jag blev inte klok över varför det ibland importerades 10 nyheter och ibland 200. Sprängs min area nu tro av alla flöden?

DEN 10 MARS 2008

Bildspel

Nu har jag kommit ifatt med veckans uppgifter, nämligen att fixa till ett bildspel med hjälp av Picasa. Jag valde ut några bilder från de ack så få dagar under vintern då både kameran och solen var framme. På de här bilderna kan man se hur fort ett föl kan växa under ett år. Idag är hon 11 månader, med egen vilja och enormt mycket spring i benen.

Picasa känns som ett bra alternativ för att hantera bilder. Inte för komplicerat att arbeta med verkar det som. Eller också gick det så lätt för att jag hade studerat kommentarerna i vår gemensamma blogg under veckan som gått. Nu är jag redo för Nyhetsflöden!

Bookmarks: import / upload

If you have bookmarks stored in your browser, you can use this tool to transfer a copy of them into del.icio.us. Then, you'll be able to access those bookmarks from any computer connected to the internet and share them with your friends and other people. You can also use step 2 to upload bookmarks exported from del.icio.us or a different service, as long as they're saved in a standard bookmarks format.

1. Save your browser favorites to a file

- Choose "Import and Export..." from the File menu
- Click Next, choose "Export Favorites" and click Next
- Choose which folder you want to export from (the top one will export all of your favorites) and click Next
- Choose "Export to a File or Address," choose a location for your file (such as your desktop) and click Next
- Click Finish, then OK when it says "Successfully exported favorites"

(Show instructions for: [Firefox](#), [Internet Explorer](#), [Safari](#), [Opera](#), [other](#))

Note: uploading XML, Excel files, mp3s, or anything except bookmarks files probably won't work.

2. Import the file to del.icio.us

Click browse and select your exported file from step 1:

(Maximum file size of 5 MB)

Tags are added to your favorites based on your folder structure. A favorite in your "recipes" folder inside your "household" folder will be tagged both "household" and "recipes." You can choose additional tags here to apply to all your favorites:

(We recommend this default tag "imported" which allows you to view all your imported items in one list at <http://del.icio.us/sandbe/imported>)

Do you want to add popular tags to your favorites? This may help you find them later, but it will also add more clutter to your tags.

Yes, add popular tags
 No, do not add popular tags

What should happen if a favorite you are importing already exists in your del.icio.us favorites?

Replace my del.icio.us favorite with the imported one
 Only import items I don't already have

Bookmarks: import / upload

If you have bookmarks stored in your browser, you can use this tool to transfer a copy of them into del.icio.us. Then, you'll be able to access those bookmarks from any computer connected to the internet and share them with your friends and other people. You can also use step 2 to upload bookmarks exported from del.icio.us or a different service, as long as they're saved in a standard bookmarks format.

1. Save your browser favorites to a file

- Choose "Import and Export..." from the File menu
- Click Next, choose "Export Favorites" and click Next
- Choose which folder you want to export from (the top one will export all of your favorites) and click Next
- Choose "Export to a File or Address," choose a location for your file (such as your desktop) and click Next
- Click Finish, then OK when it says "Successfully exported favorites"

(Show instructions for: [Firefox](#), [Internet Explorer](#), [Safari](#), [Opera](#), [other](#))

Note: uploading XML, Excel files, mp3s, or anything except bookmarks files probably won't work.

2. Import the file to del.icio.us

Click browse and select your exported file from step 1:
F:\DOCUMENT\delicious.exe

(Maximum file size of 5 MB)

Tags are added to your favorites based on your folder structure. A favorite in your "recipes" folder inside your "household" folder will be tagged both "household" and "recipes." You can choose additional tags here to apply to all your favorites:

imported

(We recommend this default tag "imported" which allows you to view all your imported items in one list at <http://del.icio.us/svante2/imported>)

Do you want to add popular tags to your favorites? This may help you find them later, but it will also add more clutter to your tags.

Yes, add popular tags
 No, do not add popular tags

What should happen if a favorite you are importing already exists in your del.icio.us favorites?

Replace my del.icio.us favorite with the imported one
 Only import items I don't already have

Hämta filen du skapade under steg 1

Scrolla ner på sidan och avsluta momentet genom att klicka Import now

Your import operation is currently in progress.

This page will reload once every minute. A success message will appear when the job is complete. You can safely navigate away and do other things — to check the status just return to this page via **settings » import**.

Importing may take some time to complete, depending on how many bookmarks you have and how many other people are trying to import at the same time. If you have been seeing this message for over a day, please send an email to support@del.icio.us for assistance (please be sure to include your username).
